Fritz Schur Technical Group – your future workplace

Fritz Schur Technical Group (FSTG) consists of four companies, including Fritz Schur Energy, Fritz Schur Teknik, Hans Buch and Johs Thornam. In total, FSTG employs just over 250 employees and has a global turnover of approx. 750 million kroner. In addition to our offices in Denmark, we have branches in the US and China. We are proud of our informal culture and we work actively with employee well-being. We value community and collaboration, and you will be surrounded by fantastic and competent colleagues. The environment is inspiring and educational at both the academic and social level. We emphasize that our employees receive the challenges and training they need in order for them - and thus the company - to constantly develop. For further information visit www.fstg.dk

Do you want to be a part of Fritz Schur Technical Group, including one of our four companies, you can apply here: <http://FSTG.jobnext.dk/9/apply>

Write a motivated application where you make it clear what job or tasks that interests you and what company you would like to work for. It will give us the best chance to review your application.

We read unsolicited applications regularly, and we will contact you if we have a vacancy that matches your qualifications. We keep your application for 6 months, after which your application will be automatically deleted in accordance with applicable GDPR legislation.

We look forward to hearing from you.
